Khalifa Port - Harbour Master Instruction

Vessels Speed Limit in Khalifa Port

To: All Vessels Operating within Port Limit, Port Users, Ship Agents

With aspects of safe navigation and an efficient maneuvering inside the port limit for vessels calling Khalifa Port, shall maintain a proper safe speed as *defined in Collregs - Rule (6) - safe Speed* inside the Basin and Channel at all times.

Inside Basin (knots)	In the Channel (knots)	Near Dredging Area
6 Knots	12 Knots	Vessel shall maintain a safe movement with minimum speed passing near to dredging operation area with sufficient distance to avoid interruption for the ongoing operation and to reduce the wave effect against the dredgers which will maintain the continuity of the dredging operations.

The above defined speed limits have been considered as a maximum where that shall not be exceeded under any other circumstances.

Your compliance with this direction is highly requested.

Capt. Ammar Al Shaiba
Khalifa Port - Harbour Master
