MUSAFFAH HARBOUR MASTER

Pilotage Services in ICAD2 and Musaffah North Corniche Channel

To: All Users

Current practice of providing 24/7 Pilotage Services in areas of ICAD2 and North Corniche Channel will be only at daytime due to shallow water and unavailability of navigational aids, so to ensure no hazard is made to environment and no damage to navigating vessels.

Pilotage services will be provided during the daylight only. Only Masters who are having Pilot Exemption Certificate (PEC) and / or Musaffah Familiarization Certificate (MFC) will be allowed to navigate their vessels in those areas during the night and on their own responsibility.

Captain Jaber Al Shehhi

Musaffah & Western Region Ports Harbour Master
