

# ABU DHABI PORTS LAUNCHES HSE AWARD

As part of Abu Dhabi Ports' efforts to reinforce a culture of safety practices in workplace, we are pleased to announce the launch of a **Health, Safety and Environment (HSE) award**.

Aimed at recognising the contributions of individuals, government and private entities for their role in improving Abu Dhabi Ports' overall HSE performance, the award seeks to promote a competitive spirit among Abu Dhabi Ports' employees as well as clients in adopting the highest HSE practices in various facilities.

The award is based on specific criteria; a set of key indicators and standards followed by Abu Dhabi Ports to measure and monitor performance improvement. Winners will be selected by a committee that will evaluate individual efforts and entities against various HSE parameters.

By launching this award, we seek to ensure the involvement of all parties in achieving safety, continuity of growth and development of operations.

The categories of HSE Awards Scheme includes Individual Awards, Department Awards, Individual outstanding HSE performance observed during Management Walkabout and "Employee of the Month" awards in recognition of the significant role they play in elevating performance and maintaining the integrity of operations and services provided by Abu Dhabi Ports.

Abu Dhabi Ports will also honour Government entities that actively engage and employ HSE standards by fostering Abu Dhabi Ports' HSE initiatives.

Annual gala will be held to honour the outstanding HSE performance for all categories. Winners and awardees will receive certificates of appreciation, monetary awards and honorary plaques.
